Rohan Murlidhar Zode

9370569860 | rohanzode03@gmail.com | Pune, India

PROFESSIONAL SUMMARY

QA-focused professional with hands-on experience in **manual and automated testing (Selenium, PyTest)**, formal test case design, functional and regression testing, cross-device validation, and defect tracking through resolution. Backed by a strong technical foundation in **Python, Django, and FastAPI**, enabling deeper understanding of API behavior, system architecture, and root-cause analysis during testing. Experience spans web application QA, API validation, and cloud-deployed systems supporting production environments for global clients.

EXPERIENCE

Sumanel Technologies Pvt Ltd

Dec 2024 – Present

QA Analyst

Pune, India

- Conducted **unit and integration testing** on REST APIs built with Django Rest Framework and FastAPI, verifying reliability and performance across microservices
- Validated data integrity and system behavior across **PostgreSQL, Redis, and RabbitMQ** integrations supporting caching and asynchronous message processing
- Tested and verified voice bot features, identifying functional issues across **LLM**, Speech-to-Text (STT), and Text-to-Speech (TTS) components
- Debugged and validated asynchronous Django cron jobs, confirming task execution correctness and system scalability post-fix

Octarange Technologies Pvt Ltd

Jan 2024 – Jun 2024

QA & Cloud Support Associate

Pune, India

- Executed **manual and automated (Selenium) test cases** for responsive web applications built with HTML5, CSS3, Python, and Bootstrap, identifying and reporting UI and usability defects
- Wrote and maintained **formal test cases and test plans**, validating application behavior across environments and tracking bugs through resolution and re-testing
- Managed **AWS EC2** instances and security groups, troubleshooting application and deployment-related issues to support release stability

SKILLS

Automation Scripting :
Web Automation: Playwright, Selenium
Testing: Postman, RestAssured
EspressoLanguages:, Python
Test Management Methodologies :
Methodologies: Scrum
Test Management: Jira
Documentation: Test Plans, Test Cases, Bug Reports
Technical Foundations :
Databases: SQL (PostgreSQL)
Web Technologies: HTML5, CSS3, JSON
Systems: Linux, macOS, Windows, Android, iOS

PROJECTS

Enterprise Chatbot Solutions

1.2 Yrs

- Contributed to development and **QA validation** of an enterprise-grade AI-powered chatbot integration for global brands including **Audi, ITC, Jeep, Hexa Health, Motilal Oswal, Autovista, TAFE, TVS HR, and CUTM**, testing conversational flows and verifying reliability for millions of end users

Battery Website 2 Months

- Performed **functional and cross-device testing** of an informational website built with HTML5, CSS3, and JavaScript, verifying responsive design and UI consistency across devices

Todo Application – Web-Based App 1 Month

- Wrote **test cases** and performed functional testing for a Django-based task management application, validating REST API and database integration for data persistence

EDUCATION

Yashwantrao Chavan University Jun 2023
Bachelor of Science – Physics, Chemistry, Mathematics (PCM) CGPA: 8.11

St. Paul Jr. College 2018
Higher Secondary Certificate (HSC) Nagpur, India

Devyanee International 2016
Secondary School Certificate (SSC)
